Bedford**

Independent State MP for Florey

MEDIA RELEASE

NBN – THE NEED FOR SPEED

Frances Bedford, Independent MP for Florey has faced tough questions lately, especially while out and about in the electorate. Australia's National Broadband Network - NBN is a hot topic on the street.

“People really want more information about the NBN - details about connection, pricing, speed and how it works. Technology is essential in everyday life for everyone now, so understanding it has become much more important.”

The NBN began to roll out in the Florey area in 2014 when parts of Ingle Farm, Valley View and Para Vista were connected. Most homes in the area are now connected.

“But with NBN a constant topic of public debate, it's time for a local forum to discuss concerns, answer questions and contribute to future planning.”

The forum will be held on

**Tuesday, 6 February 2018
6.30pm – 7.30pm**

**Training Room
Ingle Farm Recreation Centre
(corner Beovich Road and Roopena Street).**

Guest Speaker : Jill Bottrall, (NBN Corporate Affairs Manager SA/NT).

“I want to know what people in my electorate think about NBN, even though it's a Federal Government responsibility.”

“I'm especially interested in hearing from local businesses and enterprises that rely on broadband to deliver services and manage their businesses.”

“Everything that affects people I represent is important. Jill will make a brief presentation and then answer questions.”

An RSVP to 8263 2666 will help with catering arrangements.
